

New Avis car groups for Denmark – January 2021

At Avis, we are making a change from January 2021 which means that our Danish car fleet is now grouped a little differently. There will still be the old acquaintances and new categories to be found in the overview - as we now separate the passenger car fleet from vans and trucks.

A fleet for passenger cars and a fleet for vans.

2 fleets with 2 sets of car groups that must define the size, equipment for the car, and match the customer's expectations. This change will ensure that our fleet is completely up-to-date in 2021 and we will also introduce a broader green fleet in Denmark during the first quarter.

Our Acriss booking codes in Amadeus GDS will therefore change a bit:

Car Category	Group	SIPP Code	Car Type or similar
Small	A	MCMR	Fiat 500
Small	B	EDMR	Opel Corsa
Medium	C	CDAR	Renault Captur
Medium	D	IDAR	Nissan Qashqai
Large	E	SVAR	Renault Grand Scenic (5+2)
Large	F	SWAR	Volkswagen Passat
Large	G	PWAR	Audi A4 Avant
Large	H	LDAR	BMW 5 Series
Large	I	SDAR	BMW X1
Medium - Hybrid	J	IDAH	Hyundai Ioniq
People Carrier	K	LVMR	Volkswagen Caravelle
	L		Special Offers/Cars
Large - Hybrid	M	SWAH	VW Passat GTE
Electric	N	HCAE	Renault Zoe
Electric	O	DDAE	Nissan Leaf
Small	P	EWMR	Renault Clio

In addition, we will be more specific on our van and truck fleet.

We will centralize our van business from 5 primary van stations, distributed around in Denmark - so that we can now handle small repairs and thereby a higher utilization rate of our fleet.

Avis vans and trucks cannot be booked directly in Amadeus GDS, but our Team are available via mail

Travel.se@avis-europe.com

If you have many vans and truck bookings, you are welcome to contact us for a chat and possible solution for a more customized booking solution.
